PROFESSIONAL PROFILE

Instructional Designer with an MBA and over 20 years of experience designing learner-centred educational experiences across classroom, workshop, and digital learning environments.

My work combines instructional design, adult learning theory, and emerging AI technologies to create meaningful learning experiences that promote reflection, confidence, and real-world performance. I design learning solutions grounded in evidence-based instructional design principles, with a particular interest in experiential learning, performance support, and AI-enhanced learning.

My portfolio demonstrates experience designing blended learning ecosystems, Storyline simulations, facilitator-led workshops, and AI-supported coaching experiences. I enjoy translating complex learning challenges into engaging learning experiences that help learners think independently, build confidence, and apply knowledge in authentic contexts.

CORE COMPETENCIES

Instructional Design

- Learning Experience Design
- Instructional Design
- Adult Learning

- Learning Needs Analysis
- Learner Analysis
- Experience Blueprinting
- Storyboarding
- Curriculum Design
- Learning Evaluation
- Performance Support

Learning Technologies

- Articulate Storyline 360
- Moodle LMS
- Google AI Studio
- ChatGPT
- Claude
- Notion
- Canva
- Microsoft Office Suite

Learning Strategy & Facilitation

- Workshop Design
 - Scenario-Based Learning
 - AI-Supported Learning Design
 - Stakeholder Collaboration
 - Project Coordination
 - Facilitation
 - Educational Content Development
 - Continuous Improvement
-

PROFESSIONAL EXPERIENCE

Learning Experience Designer (Volunteer)

Entrepreneurship Talks | 2025 – Present

- Design and develop learner-centred workshops for entrepreneurs and professionals.
- Conduct learning needs analyses and design workshop curricula aligned with learner goals.
- Design interactive learning activities, reflection exercises, and facilitator resources.

- Develop Moodle-based learning experiences.
 - Integrate AI tools into instructional design workflows.
 - Collaborate with cross-functional stakeholders to support successful learning initiatives.
-

Learning Facilitator

JOIST Innovation Park | 2025 – Present

- Facilitate technology-enhanced learning experiences for visiting learner groups.
 - Deliver experiential learning activities focused on innovation and entrepreneurship.
 - Adapt learning experiences to different learner profiles.
 - Represent JOIST during educational visits and collaborate with educators and visitors.
 - Guide learners through hands-on activities promoting innovation, entrepreneurship, and collaborative problem-solving.
-

Learning & Development Professional | English Language Educator

Private School of M. N. Raptou | 2020 – Present

- Design learner-centred educational programmes for children, adolescents, and adult learners.
 - Develop instructional materials and learning experiences aligned with measurable learning outcomes.
 - Coordinate multiple learning initiatives while maintaining high quality standards.
 - Build strong relationships with learners, colleagues, parents, and stakeholders.
 - Facilitate engaging learning experiences using active learning methodologies.
 - Evaluate learning outcomes and continuously improve learning experiences through learner feedback and evidence-based reflection.
 - Integrate AI-powered tools and digital technologies to enhance learning effectiveness and instructional design workflows.
-

FEATURED PORTFOLIO PROJECTS

Snappi & FinTech Learning Ecosystem

Flagship Learning Experience Design Project

Role: Instructional Designer | Learning Experience Designer

- Designed a blended entrepreneurial learning ecosystem integrating workshops, interactive Storyline eLearning, and AI-supported performance support.
 - Conducted learner analysis and developed learner personas to inform instructional decisions.
 - Created experience blueprints, instructional storyboards, and learner journeys.
 - Designed and developed an interactive Articulate Storyline simulation.
 - Designed an AI Reflection Coach grounded in adult learning, coaching, and performance support theory.
 - Evaluated the AI coach through iterative instructional validation using authentic learner scenarios.
-

AI Reflection Coach

Role: Learning Experience Designer

- Designed an AI-powered performance support coach extending learning beyond a live entrepreneurship event.
 - Developed a theory-informed conversational architecture grounded in adult learning, experiential learning, coaching, and performance support.
 - Designed behavioural principles, conversational heuristics, and coaching prompts.
 - Conducted iterative testing using authentic learner interactions to validate instructional outcomes.
-

Building Confidence: Effective Communication Skills

Role: Learning Experience Designer

- Designed and facilitated a learner-centred workshop focused on confidence, communication, and professional development.
 - Developed active learning activities promoting reflection, participation, and behavioural change.
 - Designed evaluation strategies aligned with adult learning principles.
-

Communication Workshop

Role: Learning Experience Designer

- Designed an experiential communication workshop for adult learners.
 - Applied learner-centred instructional strategies, collaborative activities, and reflective practice.
 - Facilitated authentic workplace learning through scenario-based activities.
-

EUROPEAN PROJECT EXPERIENCE

eTwinning Projects

- Participated in European collaborative education projects involving international school partnerships.
 - Collaborated with educators and learners from different European countries.
 - Integrated digital collaboration tools to support project implementation.
 - Promoted intercultural learning, teamwork, and digital literacy through project-based learning.
-

PROFESSIONAL DEVELOPMENT

- Articulate Storyline 360
 - Moodle LMS
 - Google AI Studio
 - AI for Learning Design
 - Prompt Design for Learning Experiences
 - Continuous professional development in Learning Experience Design and Generative AI
-

EDUCATION

MBA – Master of Business Administration
University of Staffordshire

DIGITAL TOOLS

- Articulate Storyline 360
 - Google AI Studio
 - ChatGPT
 - Claude
 - Moodle LMS
 - Notion
 - Canva
 - Microsoft Office Suite
-
